PeopleSoft Government Contracting Solutions

Government Contracting Solutions

Government contracting firms face unique challenges in today's market place including:

- Contract award procedures.
- Contract maintenance requirements.
- Job cost requirements.
- Invoicing requirements.

Cardinal Point Solution's unrivaled skills and creative solutions meet those challenges! Our in-depth knowledge and multifaceted skill set is perfectly positioned to assist you in implementing and upgrading your PeopleSoft Enterprise Service Automation (ESA) applications.

Cardinal Point's focus on PeopleSoft ESA products and government contracting has made our knowledge distinctive within the implementation services industry. We are keenly aware of the challenges facing government contractors and have developed specialized custom solutions utilizing PeopleTools that is fully integrated with the PeopleSoft ERP software.

Cardinal Point has designed, developed and implemented the solutions government contractors require. We address your needs at the source by seamlessly integrating our custom solutions.

Cardinal Point leading the way

Cardinal Point is leading the effort to address the requirements of government contractors. We are working with PeopleSoft in an exceptional role – leading the design effort at PeopleSoft to enhance their products to meet the specific business requirements of government contractors.

We also work with PeopleSoft's product strategy team by communicating requirements from the field. Cardinal Point is routinely briefed by PeopleSoft development teams at a detailed technical level about their current products and future application enhancements. Because of this, we are completely up-to-date in our understanding of PeopleSoft strategies, product offerings, and product strengths.

Our Target Market

Because of the complexities of the PeopleSoft ESA product suite, particularly in a Government Contracting environment, customers often require assistance implementing these applications. Cardinal Point specializes in turning PeopleSoft's ESA products into a complete business solution.

Cardinal Point has the right solutions and the right skills to help your company minimize implementation and upgrade costs, achieve maximum Return on Investment, and address the needs of your organization today and tomorrow!

"The expertise Cardinal Point had previously attained was invaluable to our needs."
